

Our beautiful week in Italy
HEALTH Project, 2nd Meeting
Atri, 29 May - 04 June / 2022

Monday was our first whole day in Atri. In the morning we woke up early and went to school by bus. During the drive we could enjoy the beautiful view. At school after listening a piano show we had to work on a presentation on the topic of technology addiction. In the afternoon we visited Pescara and we had our first swimming in the sea.

On Tuesday we finished the ppt and created a poster about the same topic. We went to the park together where we enjoyed the most stunning view I have ever seen. After that we had a PE lesson. In the evening we played volleyball and had a delicious dinner.

On Wednesday we had to get up very early because we went to Rome for a city break. We listened to music and had a great chat during the bus drive. We visited some famous tourist attractions in Rome and had free time too. We ate a couple slices of pizza and bought souvenirs. Personally Rome was a bit too much for me, because the city was extremely crowded. After arriving home we had lunch and went to a party in Atri and danced all night long.

Fortunately on Thursday we could sleep as much as we wanted. After a long-long rest we went to the beach and spent the whole day there. In the evening we went out with friends in a pizzeria and had a delicious dinner.

Friday was the last day. We had to present our work in the school and met the mayor in the town hall. It was an amazing building! I went with my host to a local supermarket and bought some traditional Italian deliciousnesses. Finally we had a wonderful dinner all together. We had a great cheat and said goodbye. Everybody was sad because a perfect connection was formed this week between us.

Bence Kovács

We met the other students who took part in the project on Monday, and were assigned to make a PowerPoint and poster on given topics in groups.

On Tuesday we started, and finished the making of the PowerPoints and posters.

On Wednesday we went on a trip to Rome, and visited the famous sights, everything was really beautiful, after we got home there was a party organized by the school.

On Thursday it was a national holiday for Italy, so we had a day off, and everyone went to the beach to relax and swim.

On Friday we had to present the PowerPoints and the posters, and in the evening we had a dinner party with everyone who was in the project.

Soós Veronika

On Monday we went to school to listen to students playing piano and singing. After that we started making a ppt about the dark sides of the internet and after lunch we went for a walk in Atri and had a PE lesson in the park. Later at night we had dinner with a group of international students. On Tuesday we had to finish our ppt in school and make a poster about the positive sides of the internet. We went to Pescara to have lunch and walked around in the shopping area and on the beach. On Wednesday we woke up early to go to Rome. We spent time sightseeing with the group, went to an exhibition and had pasta for lunch. After that we had some free time to explore Rome and buy some souvenirs. At night we went to a school party where we met many new people and had a fun time. On Thursday we woke up late and went to the beach to Pineto. We went on a boat and at night we had a beach party with many of the international students. On Friday we presented our posters and presentations at school and we watched a short recap of our week together. After that we met the major and then went to the beach to play volleyball all afternoon. At last we went to a restaurant all together to chat and say goodbye.

On Monday we had the chance to visit an Italian lesson. After that we gathered in a room where we listened to the performance of some students. When they finished we got divided into smaller groups and started to work on a ppt about how the Internet affects our health. We also had a PE lesson in the park together and went for a walk in Atri's main square and then we had lunch with a group of friends.

On Tuesday we finished our ppt in the school and also made a poster about tips that help us disconnect from the Internet. After we were done we went to Pescara. We went for a walk there, took some pictures on the beach and had lunch.

On Wednesday we had a trip to Rome. We did some sightseeing there with the group and visited an exhibition. Then we had some free time when we ate lunch and bought some souvenirs.

On Thursday we had a free day so we could have some rest. In the afternoon we went to the beach in Sylvie and had a great time.

On Friday every group presented their ppts and posters in the school and we watched a short video about our week. When we finished in the school we met the major and then we went home and had a short rest. In the evening we had a short walk in Sylvie and then we had a dinner with all the students who took part in the project at the main square of Atri.
